“Being a member of this community has made me feel like I am part of something special. I can’t underestimate what I gained from being part of the group – it came at such a good time. It has given me additional tools to lead my team, build connections with other like minded women and empowered me to think about my brand and my career objectives in a whole new way. I enjoyed celebrating achievements every week, which was something new to me and looked forward to coaching calls and guest expert trainings each month - the quality was superb. Working with Lucy has allowed me to prioritise myself - not just career wise but my personal life too. It’s been phenomenal. I can’t recommend joining highly enough”

WHEN YOU INVEST IN YOURSELF OR WOMEN ON YOUR TEAM YOU CAN **LEAD BY EXAMPLE** AND **MAKE YOUR MARK**

The best talent often has everything they need inside them already. You can see their potential, that's why you hired them, right?

But what they're missing is the self-belief and confidence to truly step into their superpowers. Procrastination and cross functional conflict means they're not delivering as seamlessly as you'd like.

When you invest in your team, nothing is off limits. They'll discover their way to lead, with the unshakeable confidence to think more strategically, be more decisive and take action to increase their productivity, all of which drive your business forward... and make you stand out from your peers.

This is your chance to empower your team to do all of that and more.

ACTION FOR TODAY

CHANGE FOR TOMORROW

From aspiring executives to accomplished senior leaders together we can inspire the world to see it's time for women leaders to rise and that starts right here.

3SIXTY IS PERFECT FOR YOU IF ...

- You are a driven, action taking woman in senior corporate leadership or entrepreneur
- You want a shortcut to achieve more success, better balance and true happiness
- You want to learn the skills and tools you're missing to reach your potential
- You want a safe space to discuss business challenges to gain different perspectives
- You are ready to truly step into your superpowers
- You want to accelerate your career potential and leadership impact
- You want to inspire your team and others to achieve their potential too
- You love to collaborate and love to see others succeed as you do
- You are open to what's possible when you have the right people around you
- You are ambitious and want to rise higher to claim your seat at the leadership table
- You are ready to become who you were born to be

3SIXTY IS NOT THE RIGHT FIT FOR YOU IF...

- You are below Senior Manager/Associate Director in Corporate or Run a Small Business
- You are not ready to put in the work to change what needs to be changed
- You already have enough time to do the things you love
- You have a strong support network and access to top guest experts and coaches
- You have a negative, fixed mindset and are unwilling to implement what you'll learn
- You only want change for you, instead of supporting others
- You don't see the point in investing in yourself or your team
- You would rather continue the hard way, trying to fix things yourself rather than discovering a shortcut to move forward
- You aren't prepared to take action & want others to do it for you
- You blame others when you don't see results instead of taking accountability for yourself

I believe that anyone can make that lifestyle their everyday reality but in order to do so they have to believe in the unique gifts they have inside, put their own development first and learn the skills and tools they're missing so they can rise.

The most successful teams and companies champion professional development because they value the talent they have within the organisation, and they know that by investing in their people, they will increase retention and results, future proofing the success of the business.
